

## INSTRUCTIONS

### Solution for drains and piping maintenance

**Solu-Drain is easy to use:** a simple dilution is required.

**Slow flow:** Add 1 liter of **Solu-Drain** with 3 liters of cold water in a clean container with a capacity of 4 liters, pour 250 ml of the solution directly into each of the drains and sinks to be treated 3 times a week and after business hours.

**Preventive Maintenance:** Add 1 liter of **Solu-Drain** with 3 liters of cold water in a clean container with a capacity of 4 liters, pour 150 ml of the solution directly into each of the drains and sinks to be treated 1 time a week and after business hours.

**For best results:** ensure that drains and pipes are clean before the first application of **Solu-Drain**.

**Available in sizes:** 4 and 20 liters.
