

## INSTRUCTIONS

### Cleaning and polishing solution for stainless steel and chrome in one step

**Solu-Scrub** is easy to use. A simple dilution is required. **Solu-Scrub** is designed for cleaning and polishing stainless steel and chrome in one step.

**Stainless steel:** add 60 ml of **Solu-Scrub** to 940 ml of water in a 1 liter bottle capacity, spray the diluted solution on the surfaces to be cleaned and then rub using a hand paper on the grain direction. Allow to dry. Repeat as necessary.

**Chrome and Faucets:** add 60 ml of **Solu-Scrub** to 940 ml of water in a 1 liter bottle capacity, spray the diluted solution directly on all the surfaces to be cleaned, allow to act for a few seconds, rub and dry.

**Ceramics:** Add 30 ml of **Solu-Scrub** to 970 ml of water in a 1 liter bottle capacity, spray the diluted solution directly on places to clean, let the product work for a few minutes, rub ceramic seals using a soft bristle brush then wipe with a clean cloth.

**Difficult to clean surfaces:** add 200 ml **Solu-Scrub** to 800 ml of water in a 1 liter bottle capacity, spray the diluted solution directly on surfaces to clean, let the product work for a few minutes, rub using a soft bristle brush then wipe with a clean cloth.

**Solu-Scrub** can be used with an automatic dilution device.

**Available formats:** 1, 4, and 20 liters.
