

TRAPPES À GRAISSE / GREASE TRAPS

INSTRUCTIONS

The solution for the maintenance of grease interceptors

Solu-Trap-B is easy to use. No mixing is required. Just open the cover of the grease interceptor and add a new cube. For more information about the installation, contact your **Solutions Enbiotech Plus distributor**.

Grease Traps 50 to 400 gallons: add a new cube of **Solu-Trap-B**, once a month.

Grease Traps more than 500 gallons: for required dosages, please contact your **Solutions Enbiotech Plus distributor**.

For best results: Ensure that the grease trap is emptied before the first application of **Solu-Trap-B**.

Available in: 2 pounds cube.
